Primary Examiner, Art Unit 2123

NOTICE OF ALLOWANCE

Claims 1, 2, 4-10, 12, and 14-23 were allowed in the Office Action entered on 2 June 2010.

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 31 August 2010 has been entered.

Claims 1, 2, 4-10, 12, and 14-23 are allowed.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 31 August 2010 was filed after the mailing date of the Notice of Allowance on 2 June 2010. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

2. Regarding the 31 August 2010 Information Disclosure Statement ("the IDS"), the Examiner respectfully submits the following observations:

a) The IDS document contains 69 pages of citations of patent documents, foreign patent documents, and non-patent literature.

Art Unit: 2123

b) The IDS includes citation of approximately 193 US Patent Documents, 25 US Pre-grant Publications, and 332 Non-Patent Literature References.

c) The Examiner has considered the first 20 references and is unable to ascertain their relevance to the current claimed invention. For example, the first cited reference, US Patent Application Number 09/964,991 (CD00196) original disclosure titled "A Novel Band-Gap Circuit for Providing an Accurate Reference Voltage Compensated for Process State, Process Variations and Temperature" by Kutz et al. appears to be unrelated to the claimed invention in this application.

3. Therefore, the Examiner respectfully submits that:

a) The IDS identifies an unusually large number of references, representing an unusually large volume of technical disclosure. The Examiner is unable to reasonably determine the full scope of the teachings found in these references.

b) It is unclear how the references cited on the IDS are "material to the patentability" to the pending claims in this application. It is unclear how the references cited on the IDS are relevant to the disclosed invention in this application.

4. In conclusion, the Examiner has made a reasonable effort to consider the references cited on the IDS, but is unable to determine the full scope of the teachings found in those references. The Examiner is unable determine how the references cited on the IDS are relevant or material to the patentability of the pending claims. Nevertheless, as indicated above, the Examiner has considered the IDS and has provided an initialed copy of the forms PTO-1449.

5. 37 CFR 1.98(a)(2) requires that Applicants provide the office with a legible copy of (i) each foreign patent and (ii) each publication or that portion which caused it to be listed, other than U.S. patents and U.S. patent application publications unless required by the Office. In the 31 August 2010 IDS, the follow citations have been lined through because the required legible copy of the reference has not been found in the papers submitted to the office:

Page 7, references 25 and 27

Page 13, references 1-3

Page 16, references 1-2

Page 17, references 3-8, and 11-12

Page 67, references 1-8

Page 68, references 9-19

Page 69, references 20-23

In addition to these 231 missing documents, the following citations were lined through:

Pages 4-5, the foreign references 1-4 have not been found in the papers submitted to the Office. However, similar documents which appear to be partial translations of those foreign documents have been found. Those partial translations are clearly not the foreign documents cited on the IDS.

Art Unit: 2123

Page 19, reference 2 appears to cite a US Patent Application disclosure, but that document has not been found. However, a similar document which appears to be amendments to a US Patent Application specification has been found.

Page 23, reference 1 appears to cite a USPTO Requirement for Restriction/Election, but that document has not been found. However, a similar document which appears to be a non-final Office Action has been found.

Reasons for Allowance

6. An Examiner's statement of reasons for allowance is found in the 2 June 2010 Notice of Allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
